QuotienSM Small Business Banking— Just the Right Mix of Easy-to-Use Business Applications

A growing number of consumers are creating their own businesses these days. So providing a selection of services that's just right for them should be an important element of your retention strategy.

For sole proprietorships and entrepreneurs just starting out, QuotienSM Small Business Banking is an excellent choice. Business customers can view real-time account balances or transaction history and transfer funds when they need to, all with the click of a mouse. They can also schedule payments when it's most convenient for them, while knowing that payments will be processed accurately and timely.

With Quotien Small Business Banking, your small business users can monitor their finances in real-time, making adjustments as needed. But more importantly, they can stay on top of what's important to them: their business. Not only is Small Business Banking the ultimate in flexibility, it's also an effective introduction to the basics of business banking.

Small Business Banking includes:

- Account Statement/Transaction History
- Business Bill Payment
- Secure Service Toolkit
- Account Transfers
- End-to-End Accountability

Business Bill Payment

Small businesses can save time and money by paying bills from one convenient service. Business Bill Payment is a great way for small businesses to ensure that their payments are recorded correctly. They can supply up to 80 characters of information—including invoice numbers, adjustment amounts, and discount information—that will be printed on the actual check voucher. Business Bill Payment ends unnecessary delays and confusion, ensuring that your small business consumers maintain the best possible relationship with their vendors.

Secure Service Toolkit

Our standard Secure Service Toolkit contains precisely the business forms that entrepreneurs like yours are most likely to use:

- Wire Transfer for sending guaranteed funds under tight deadlines.
- Loan Applications to help them manage their cashflow.
- Stop Payment instructions

Online Resources has 20 additional service request templates that should satisfy even the most demanding business customer.
